

Q.6

```
import groovy.xml.MarkupBuilder
def mv= new MarkupBuilder()
mv.collection(theater:'Vishwanath')
{
movie(title:'LIGER')
type('Fighting')
format('HD')
year('2022')
rating('1')
stars('10')
description('Talk about the boxing')
}
```

```
1 import groovy.xml.MarkupBuilder
2 def mv= new MarkupBuilder()
3 mv.collection(theater:'Vishwanath')
4 {
5     movie(title:'LIGER')
6     type('Fighting')
7     format('HD')
8     year('2022')
9     rating('1')
10    stars('10')
11    description('Talk about the boxing')
12 }
```

```
<collection theater='Vishwanath'>
  <movie title='LIGER' />
  <type>Fighting</type>
  <format>HD</format>
  <year>2022</year>
  <rating>1</rating>
  <stars>10</stars>
  <description>Talk about the boxing</description>
</collection>
```

Result: collection
